Johann Sebastian Bach was born in Eisenach, Germany in 1685. As a child Bach's father taught him to play violin and harpsichord. His uncles were all musicians, serving as church organists and court chamber musicians. One of his uncles, Johann Christoph Bach, introduced him to the art of organ playing.

In 1707 Bach married his second cousin Maria Barbara Bach. They had seven children. In 1720 Maria died, and Bach married Anna Magdalena Wilcke in 1721. Bach had 13 more children with Anna Magdalena. He was a father to 20 children in all.

In 1723 Bach became the cantor, organist, and music composer for St. Thomas Lutheran Church in Leipzig, Germany. Bach remained there for the rest of his life.

Some of Bach's most famous works include the Brandenburg Concertos, the Well-Tempered Clavier, and the celebrated organ work Toccata and Fugue in D Minor.

Johann Sebastian Bach died in 1750. Bach was not appreciated during his own lifetime and was considered an "old-fashioned" composer. Today, Bach is considered to be one of the most influential composers of all time. In fact, he is now such an important composer that the year of his death is a defining point in music history. It marks the end of the Baroque Era.
